A classic Rock'n'Roll moment.

The voice has just enough nonchalance, it is a grand musical slap in the face of the most non-believers. Only three titles in this first demo (still entitled "Nova Art Tone"), we demand the full album!

With our grateful thanks to all 19 artists who joined this issue of the Pirate Compilation. We'd like to thank Nehoryn, for his work on the sound and the design, as well as the whole Parti Pirate crew.

You may freely download and redistribute this compilation, for instance on the Peerates.net P2P network; feel free to buy these albums on the artists' websites. Internet users from all over the world, stay sharp: everywhere, governments are preparing a dark future for all of us. Individual liberties are at stake, as well as knowledge and culture.

Երանք Երբ

Here come Lot's Daughters, straight from Alfred de Musset's poems.

An excellent docking place to discover this first album Nightfall's

Prayers and its sober, dark and somptuous "cold wave" style.

Some fine and smooth Jazz, that is what this 11th album has to offer.

This excellent quartet proudly walks in the steps of Bill Evans, John Coltrane and the great names of modal jazz, with this pavan-like jazz ballad.

After having, through an epic battle, overcome 4852 assailants, Zhang Ziyi has finally fallen asleep under a Japanese maple, and as the end credits start rolling over the sunset, you're listening to Lacrymosa, credited at the bottom of the big screen. Besides music, he's also been studying modelization and animation. OK, Zhang Ziyi was kind of anticipated -- but everything else is accurate!

This minimalistic electro music, both sensual and deliciously moody, is far from our usual clichés (to be honest, when thinking about Germany, Hogan's Heroes or Derrick generally come to mind before Bertolt Brecht). You will no longer find any trace of him on Jamendo, but his works are still to be freely listened to on his website.

It tastes like a fresh smoothie, smells like the Blue Moutain: this first album is much enjoyable with its jazz ballads and bossas. Like Walter says in The Big Lebowski: "That's right dude, the beauty of this is its simplicity!"

What would it take a Swedish musician to play a Brasil music standard?

Perhaps, the contribution of the lovely singer Tamy (to be found on

last.fm). Jazz lovers will enjoy this little bossa-nova jewel, as well

as his previous album.

A towering subtlety and delicacy achievement, that would make you mix

up a kalashnikov gust with a lily rain if you're not looking twice --

and as a matter of fact, we advise you not to. This joyful first album

is the proof that one can still sing and play the guitar, make the

folks happy, without looking for TV (French joke) shows everywhere.

Some good old rock, that just sets you on fire. Let's cut the classic "scène française" stanza; we won't compare these guys to the legacy of their elders, and say that this second album makes them enter in adulthood... more [this], but still as [that]...!

Then again, there's the simple song; this simple song you hear at once without consequences, and yet, months afterwards you'll still be humming it. Is it the accordion, the xylophone or the soft voice? There's a charming bal-musette bittersweetness through these two albums.

The delicate alchemy of swing, hip-hop and bebop put together, with a touch of raï: this album certainly isn't afraid of taking risks! With sharp tunes and clever lyrics: "Kapanoms" may not have a name, but it does have a voice!

Hurdy-gurdy, accordion, tables you only leave sorrily and promising you'll come back soon, a little girl twirling in her pretty dress while the ball is ending. An eternal music, full of tunes we're familiar with and we expect to stay magically forever. We are grateful to the Raillard brothers to allow us to believe so.

'As Far As The Eye Can See' is taken from the second album 'Glad To Find You Well' from this 1996-born belgian band. While most titles are led by various celtic influences, the Flanders' soul is harmoniously there as well. Driven by their rock instincts as they are, a lot of flute-smashing is to be expected in their upcoming tours!

Heavy, noisy, and definitely breathtaking. On the verge, and excellent by nature. The Night Rebirth, by Nehoryn, has been out for a few weeks now; his accomplice Fresh Body Shop has just released his own 5th album, The Ugly Army. You may find both of them online (for instance via www.lastfm.fr/music/Fresh+Body+Shop).

Instant-garage short tracks style offers a similar challenge as short stories do in literature. It is a risk, and, in this case, a great achievement. One can even find a new female-voiced version of the track in their "4-titles 2008 Demo". Personal ad: this band is looking for a bass-player, feel free to drop by and leave a note on their website!
